POWERFUL ALLIANCE AMONG ESTABLISHED BUSINESS SCHOOLS

China Europe International Business School (CEIBS), Harvard Business School (HBS), and IESE Business School (IESE) have joined academic forces to design, develop, and deliver the Global CEO Program for China, which specifically addresses the business and management demands on CEOs in China today. Applying the principles of academic rigor, diversity, and learning impact, this powerful educational alliance makes it possible for an outstanding faculty team to tailor a general management program with unique relevance to China.

**China Europe International Business School** is a pioneer of world-class management education in China and a well-known business school in the Asia Pacific region. Established in 1994 as a joint venture between the European Union and the Municipal Government of Shanghai, the School combines outstanding international management education with profound knowledge of the Chinese business environment. CEIBS’ reputation for excellence has made it the executive education learning partner of choice by a wide variety of leading multinationals and Chinese companies.

For nearly a century, the mission of **Harvard Business School** has been to educate leaders who make a difference in the world. Renowned for its legacy of innovation, the School introduced the case method to management education, developed the concept of executive education, and created the world’s first MBA program. A global network of five research centers on four continents extends the School’s groundbreaking research efforts to the international marketplace. Founded in 1908, HBS is a long-standing world leader in redefining the nature of management education, in shaping the practice of business in every industry, and in inventing the future of business.

**IESE Business School**, the graduate school of management of the University of Navarra, is committed to the education and development of business leaders worldwide. The School launched its MBA program in 1964, under the guidance of an advisory committee set up by Harvard Business School and IESE, which continues to meet annually to discuss matters of mutual interest and relevance. The School not only pioneered the concept of executive education for business leaders in Europe, but also initiated joint-venture executive education, a growing tradition among leading business schools. Since its founding in 1958, IESE has served companies and society through high-quality teaching and research, and has become one of the world’s largest producers of business cases.
MESSAGE FROM PROGRAM CODIRECTORS

Dear CEO,

Thanks to rapid growth over the past several years, Chinese businesses are looking to expand, and many are realizing the need to implement models that have yielded success for other world-class corporations. However, entering the global economy and optimizing competitiveness demands significant insight into best practices and behaviors of visionary CEOs, particularly as it relates to corporate strategy, managing and investing in human and other strategic capital, resource allocation and other key operational elements.

Last year, three prestigious business schools, China Europe International Business School (CEIBS), Harvard Business School (HBS), and IESE Business School (IESE), created an executive education program that addressed the skills CEOs need to operate competitively against world-class multinationals. Feedback from last year’s participants was overwhelmingly positive. Chinese CEOs learned to integrate key management concepts with enhanced organizational strategy to drive their performance and that of their organizations. You can see more of what they had to say by visiting http://www.ceibs.edu/exceced/programmes/open/3355.shtml.

An outstanding faculty team from the three universities is preparing to guide the next group of Chinese CEOs through this comprehensive, professionally enlightening experience. Designed to promote shared learning among diverse peers, participants benefit from interactive lectures with world-renowned faculty, case studies, and self-assessment exercises. As a participant, you will explore proven methodologies, develop new ways of thinking about strategy and finance models, and view economic development and industry trends from a global perspective. We also believe that attending modules in China, Europe and the United States is a great experience that provides international exposure, which is highly relevant for you and your business.

Spending time reflecting with the faculty and your peers will enable you to step away from your daily activities and think about challenges and opportunities in new ways. Our primary goal is providing the tools to position your organization as a world-class company with sustainable advantage. We hope you will join us for this year’s Global CEO Program for China.

Sincerely,

PROGRAM OVERVIEW

Countrywide economic growth and globalization of the world economy provide an excellent backdrop for businesses in China to develop and prosper on an international scale. Company growth and sustainability, however, can be threatened by various factors, including industry consolidation, globalization, and economic reform. The task of building strong companies and effectively integrating them into the global marketplace is a difficult, complex undertaking for top corporate executives. To distinguish their companies from the competition, Chief Executive Officers (CEOs) in China need to maximize their potential for coping with the changing environment, managing across business disciplines and country borders, and providing organization-wide leadership.

The Global CEO Program for China is a special executive education initiative that is being offered through an educational partnership among three established business schools worldwide - China Europe International Business School (CEIBS), Harvard Business School (HBS), and IESE Business School (IESE). Recognizing that companies succeed through individual initiatives and organizational excellence, the program is designed especially for Chinese CEOs who are in a position to review, reflect, and make breakthroughs in both areas.

By enabling participants to broaden their business knowledge and to acquire strategic vision, the program enhances the leadership skills of CEOs in China. They will leave the program with a new level of readiness that is necessary to meet current and future challenges and to capitalize on opportunities around the world.

PROGRAM OBJECTIVES

The Global CEO Program for China is developed as an unparalleled opportunity for CEOs in China to gain new insights with respect to important social, cultural, political, and economic factors that significantly influence business in the global environment. Through in-depth examination of critical issues, business developments, and emerging trends, participants will learn what is required of them and their organizations to create and sustain value throughout the enterprise.

Specifically, the program enhances the capacity of participants to:

- respond to the challenges of a competitive global environment
- formulate strategic objectives and implement strategies for creating competitive advantage and stakeholder value
- build management systems and organizational processes that facilitate execution excellence
- understand and manage the change process needed to create a world-class company
- lead with wisdom, integrity, and vision, while encouraging others to do the same

This exclusive learning opportunity also is appropriate for seasoned general managers and experienced directors of corporate boards. The goal is to assemble top executives and business leaders who represent diverse companies and industries, have a proven track record for leading and implementing, and exhibit high potential for contributing to and enriching the overall program experience.

LEARNING ENVIRONMENT

The program’s integrated learning environment creates an unrivaled opportunity for reflection, individual development, ongoing exchange, and action learning.

**Case Method** The program faculty’s leadership and expertise in case writing and teaching adds a powerful dimension to the learning experience. As a result, participants engage in an interactive learning process that replicates executive decision making in actual business situations. Incorporating both written and “live” case studies that offer multiple levels of learning, the program compels executives to identify relevant issues and to apply practical business lessons to their own situations and companies.

**Dynamic Interaction** All program activities are structured to foster formal and informal interchange among high-level peers from different backgrounds, companies, and industries, as well as with the outstanding team of faculty members from the collaborating business schools. Classroom discussions, case studies, team projects, and study groups promote the exchange of ideas and experiences, stimulate fresh thinking, and encourage different points of view. This shared learning creates a unique opportunity for participants to reexamine and reformulate their goals and strategies, both professionally and personally.

**Action Orientation** The program’s action-oriented team approach helps participants to apply their personal experience and new business knowledge to generate solutions in real time. While examining strategic issues, they are encouraged to consider specific areas for application, particularly how they can leverage structure, processes, culture, and incentives to implement strategic change within their organizations.

著名商学院的强强联手

中欧国际工商学院、哈佛商学院以及 IESE 商学院强强联手，集结强大的学术力量，共同设计、开发和讲授全球 CEO 课程。该课程专门为当今中国 CEO 的工商管理教育需求而设计。本着学术严谨、倡导多元化和严格保证学习效果的原则，这个由三所著名商学院组成的强大的工商管理教育联合组建了一支杰出的教授队伍，根据中国的实际情况度身定制了这个综合性管理课程。

中欧国际工商学院不仅是最早提供世界级工商管理教育的商学院，也是一所在亚太地区享有盛名的商学院。自 1994 年由欧盟和上海市政府合作建立以来，它一直将杰出的国际化管理教育与中国商业环境的深刻理解相结合。中欧国际工商学院享有追求卓越的盛名，这使它成为诸多居于领先地位的跨国公司和中国本土公司进行高层经理培训项目时的理想合作伙伴。

近 100 年来，哈佛商学院的使命是为那些对世界产生重大影响的领导者们提供教育。哈佛商学院向来以其创新的传统而著称——它在管理教育中引入了案例教学法、发展了高层经理培训的概念，并在全球首先开办了 MBA 课程。哈佛商学院还于全球四大洲拥有五个研究中心，凭借这一全球网络，其开创性的研究扩展至了国际市场。哈佛商学院自 1908 年建立以来，在重新界定管理教育的本质、塑造各行各业的商业实践以及创造企业未来等方面，一直处于领先地位。

IESE 商学院是西班牙纳瓦拉大学（the University of Navarra）下属的管理学院。它一向致力于在全世界范围内教育和培养企业领导者。1964 年，在与哈佛商学院共同组成的顾问委员会指导下，该学院首次开设了 MBA 课程。至今，顾问委员会成员每年仍就共同感兴趣的相关问题展开讨论。该学院不仅时欧洲第一个针对企业领导者开办高层经理培训课程的商学院，而且发起了第一个合作式高层经理培训课程——如今，世界领先的商学院越来越多地采用了这一模式。自 1958 年成立以来，凭借其高质量的教学和研究，IESE 商学院为企业和社会提供优质服务，并成为世界上最大的商业案例制作者之一。
