CEIBS attracted me with its strong reputation for connecting world-class business education with the China environment. The classes and school have a great blend of Chinese and international rising talents. I gained many new valuable perspectives beyond my own industry thanks to the rich interaction during the lectures and beyond. After graduation from the programme, the many alumni events and groups offer a strong platform for continuous learning, inspiration, and networking. The time and efforts invested paid off well for me.

CEIBS Global EMBA was a journey of self-exploration. It broadened my views, expanded my network, and more importantly it helped me to get to know more about myself, helping me to be more brave and willing to take more risks. I felt so refreshed after each module. I learned constantly about other businesses and other functions, and this has helped me to become a better professional and accept more pressure. It was a journey to find a better me. It was such a rewarding journey!

Learning Across Cultures and Continents

CEIBS Global EMBA provides extensive opportunities for participants to tailor their own global journey, through a combination of global electives and global core modules.
The Global Modules are the single most important element of why I picked this programme. By bringing us out of our country, you really experience the business first-hand, and that really makes a huge impact, of how we think about business, how we do business. That really makes this trip fascinating and has given me a whole new perspective on what a global company in China can do.

Global EMBA 2016

The East Asia module allowed me to see first-hand the role that government can play in guiding economic development. We were able to observe different government approaches to infrastructure, social benefits and innovation plans. From this I was able to reflect on the role and policies of the Chinese government in making impacts on the Chinese economy.

Ceci Chen

Global EMBA 2015

The global electives are all about immersion. You are immersed in the economy of that country, rather than just being in a classroom. You experience the culture, the people and the way of doing business first-hand. Having the professor as guide also maintains that business framework, and you can learn from the professors about what the countries are doing. There are so many things that I have learned that I am able to apply to my everyday business.

Developing the Leader in You

Helping you develop further as a leader is a critical component of the CEIBS Global EMBA. The programme opens with a week-long module that focuses exclusively on developing participants’ leadership capabilities. In this module, participants don’t ‘learn’ leadership, they practice it.

Each participant is assigned an executive coach who works comprehensively with him/her throughout the module. The cornerstone of the module is an intensive day of outdoor activities, where each participant is filmed as he/she undertakes demanding leadership exercises. Using the video footage, the executive coaches will then analyse each participant’s behaviour in a leadership context.

This innovative and far-reaching approach helps each participant understand their own leadership style, laying the foundation for the remainder of the 20-month programme.

Participants can complement this foundation in leadership with:

- A core module on Organisational Behaviour
- Several electives focused on leadership
- Additional inspiring lectures and seminars in the area of leadership throughout the programme
- Comprehensive reflection segments during the programme’s Exit Module
During the two-year journey at CEIBS, my understanding of intercultural management was deepened immeasurably. Learning about how to communicate with people from different cultural backgrounds and how to operate in a global environment gave me more confidence that has been invaluable to my own personal career development. The diversity of the classmates, not just in terms of nationality, but also in terms of industry and functional background was a constant eye-opener. My decision to join the Global EMBA was one of the most important I have made in my life.

After 20 years of work experience covering most of Asia in industrial sales and management, I felt that I needed to re-sharpen myself, which is why I joined CEIBS Global EMBA. In the 2 years with the programme I gained an insight into my own management style as I explored different strategies and validated the theories we learned. I learned from the diverse perspectives of my peers, which is something that is difficult to find in your own workplace. I have gained friendships and memories that will last a lifetime. Knowledge is a life long journey, the earlier you embark on it the faster you will enjoy and prosper in your life.

CEIBS Global EMBA is a 20 month learning journey for senior executives who want to develop their capability to lead in business in any location around the world, but retain a strong interest in understanding China within the world at a deeper level. The programme consists of three high-level pillars. First, is the leadership dimension: creating leaders who are adaptable and able to deal with uncertainty. Second, participants make a rigorous deep-dive into the full spectrum of the business fundamentals. Finally, we conclude with integrative modules to make sure participants understand how the different business functions work together, including global elective modules in seven countries around the world.

Coming from a Chinese private company, My CEIBS experience has not only provided me networking opportunities with elite business leaders from a diverse multicultural background, but also real-world learning through face to face company visits. This has given me a deeper understanding of both our strengths and weaknesses being a local company, and has enabled us to establish strategic collaboration with global industry players. After my graduation, the inclusive community has continued to give me inspiration and encouragement at each and every step towards my growth and development as an executive. My CEIBS experience hasn’t just changed both my business and personal life, it’s enriched it!

The Global EMBA programme has opened my eyes on the real me and enlightened my leadership skills. The density of the learning, the insightfulness of the concepts taught, the reality of the case studies, the quality and diversity of the participants, under the guidance of world class faculty professors have completely transformed both my way of thinking and my vision.

Learning across the five continents, and within the seven countries we visited, coupled with the company visits and after class activities in addition to networking, were amazing and priceless.

In my role as a top executive, the practical application of all the learning to my daily life makes me discover and live a passion to lead people; and solve problems to the benefit of my organization.
