CHINA DEPTH  GLOBAL BREADTH
A transformational global learning journey, anchored in China

CEIBS Global EMBA, ranked 2nd globally, is a part-time programme that balances China Depth and Global Breadth and develops responsible global business leaders. The programme is a transformational self-development journey, allowing each student to step outside their everyday work environment and see business challenges from a whole new perspective.

With modules available in 10 countries worldwide, a diverse student body from nearly 20 countries, and two integrated tracks running between China, Europe and Africa, CEIBS Global EMBA provides unparalleled opportunities for participants to expand their global network, while plugging into China’s largest business school alumni network and to take their career and personal development to the next level.

Underpinning the 20-month Global EMBA learning journey is the programme’s leadership dimension, as we prepare executives to think and act as global leaders who can make a lasting positive impact, not just on their own organisation, but on the wider society as well.

I was very impressed by the rigor of the GEMBA programme, the quality of the tailored case studies, the richness of the international modules and the diversity of its students.

Nicole Wu

The Global EMBA journey was an amazing learning experience that will continue and not stop after graduation. During the programme, I worked and learned with many other executives from different industries who are now my friends. I gained great insights and ideas that I transferred successfully into my own work. The same is true with the many learnings from the Professors. Managing the programme during the pandemic situation was a challenge, one that I passed and will always cherish. I am now more ready than ever before for any other uncertain challenges that lay ahead in the future. The programme helped me tremendously to be the best me.

Capstone Project

The Capstone Project, which takes place during the last 10 months of the programme, provides participants with a unique opportunity to apply what they have learned in a practical business context. Participants will tackle a real-life strategic problem or challenge currently facing a classmate’s organisation, giving the project real-world applicability. The project is designed for participants to blend management theory with business practice as they ‘connect the dots’ and integrate the different business fundamentals that they have learned throughout the programme.

Students will form groups of 4-6 classmates and each group is assigned a CEIBS faculty member who will guide them through the entire project with in-depth feedback and instruction. Each team will produce a 30-page report, which will then be orally defended by all team members in front of a panel of professors.

CEIBS Global EMBA not only helped me grow from a functional leader to a real business leader, it truly empowered me as a global leader with China Depth and Global Breadth. With classmates from all over the world, across various industries and with different educational, cultural, and professional backgrounds, I enjoyed our interactions and treasured everyone’s input. The social, professional, and academic value CEIBS brought me are equally pivotal, but I believe it is always people that makes the difference. CEIBS represents a journey where talented people meet, share and grow together.
Helping you develop further as a leader is a critical component of the CEIBS Global EMBA. Throughout the programme students will be continually challenged and inspired through immersive, experiential leadership exercises, helping you understand your own leadership style and blind spots.

Further than that, the Global EMBA aims to develop empathetic, responsible business leaders who are able to create a lasting impact, not only on their own organisations, but also on broader society. For this reason, aspects of Corporate Social Responsibility are weaved into all the leadership components in the programme to contribute to the programme’s vision of developing responsible leaders who are well-versed in China Depth and Global Breadth.

There are several major touchpoints on leadership and CSR throughout the programme:

- **Opening Leadership Module**
  - Classroom lectures
  - Coaching sessions
  - Peer review
  - Outdoor exercises
  - Self-review
  - CSR
  
  Each participant assigned an Executive Coach for the week

- **Mid-term leadership module**
  - Understand your individual leadership strengths and weaknesses
  - Manage conflicts through successful leadership transactions
  - Develop resilience in the face of adversity
  - Embrace lifelong learning to sustain your leadership performance

- **Exit Module & Action Reflection**
  - Understand your individual leadership strengths and weaknesses
  - Manage conflicts through successful leadership transactions
  - Develop resilience in the face of adversity
  - Embrace lifelong learning to sustain your leadership performance

Joining the Global EMBA programme at CEIBS turned out to be the right choice when I decided to step out of my normal circle and tried to challenge myself through an exposure to new minds, different angles and methods to read the world. The part I like most, and find really valuable, is that the programme is designed around leadership. It shows you why you need to be a good leader and how to be a good leader, both at work and in life. I benefited from it and my lovely classmates immeasurably. I learned I am not alone; we all have passion and want to better ourselves, we just need a bit of courage!

My personal example demonstrates that attending CEIBS Global EMBA can be truly transformational to one’s career. At the time when I joined CEIBS back in 2009, I was managing a small regional business unit. Ten years after completing my CEIBS Global EMBA, I am a CEO of a globally-leading organization with close to 40,000 employees around the world. CEIBS Global EMBA challenged my thinking, expanded my network and gave me the confidence and the toolkit with which to address the most complex business issues of today and tomorrow.
